LYCOSPORT è una miscela di potenti antiossidanti, organico lycopene and nutritive molecules, suitable in contrasting the oxidative stress caused by sport practice. Carnitine and Coenzyme Q10 have a sinergic activity with the antioxidant mixture, redressing the energy balance and developing the aerobic capacity by an antifatique activity.

HOW TO USE: Take 2 softgels daily, after the main meals.

WARNINGS: If pregnant or breastfeeding, ask a health professional before use. Keep away from children under 3 years. Dietary supplements are not a replacement or a substitute for a healthy, balanced
